Patented Sole and Tire Cleaning System for the **Packaging Industry**

www.nsstechnology.com

a product of

The Problem...

... the Solution!

The Principle

The ProfilGate®
Video is available here:

The Advantages

- purely mechanical cleaning of tire treads
- high efficiency due to patented brush strips with slanted bristles
- long durability due to solid grates
- easy cleaning and maintenance

Proven Effectiveness – Dry Cleaning

Scientific analysis using a direct contact test (DCT) and REM-EDX technique

Only 3 rotations are needed in order to remove up to **80%** of adhering dirt from small wheels and rollers!

Typical Applications

When is the Application worthwhile?

- in cases where in-house cleanliness is indispensable in order to ensure the quality of your products
- in cases where workplace safety shall be improved
- in cases of high cleaning costs
